

# ZebraCare™ Services

## Protecting your investment

You have invested in Zebra because you want market-leading printers that deliver exceptional performance, reliability and value for money. To ensure you get the very best from your Zebra® printer, ZebraCare Services have been developed to deliver solutions that will help you remain competitive in the marketplace.

All ZebraCare Services cover the labour, spare parts and preventative maintenance (and, where applicable, printheads and travel) necessary to bring your printer back to full operation. With an Annual ZebraCare Service Agreement, you are covered from the date of order.

Safeguarding your printers with ZebraCare provides assurance that our product experts will quickly repair and return your printer to you in working order!

### Choose the ZebraCare service that suits you:

Depot Service, On-Site Service or Fixed Price Repair.

## ZebraCare Service helps:

- Maximise uptime and productivity
- Ensure swift hardware repairs by Zebra printer specialists
- Keep you updated with engineering information
- Eliminate your inventory of parts
- Maximise printer reliability and operating efficiency
- Improve planned budgetary control

# ZebraCare Services

## ZebraCare Depot Service

ZebraCare Depot Service is a service agreement where you return non-functioning products to Zebra. ZebraCare Depot Service comes in two options: Standard and Comprehensive.

The Standard Service includes coverage on all parts and labour for all repairs except those due to abuse, misuse and the printer being beyond economic repair.

We typically repair printers in 5 working days, where day one is the day of receipt at Zebra. Zebra pays for return shipping.

Upgrade to the **Collection Service**, where Zebra organises the next-day collection of your non-functioning printer.

Upgrade to the **Guaranteed Four-day Turnaround** option where your printer is either repaired or replaced with an equivalent loan or exchange model. A minimum of 100 printers must be under contract for this option to apply.

## ZebraCare On-Site Service

The ZebraCare On-Site Service is a service agreement that allows customers to receive service on their Zebra printers at their place of business.

With this service, a Zebra-trained technician arrives at your location within 24 hours of the call, and you are guaranteed to be up and running with your printer repaired or replaced with

an equivalent loan or exchange model within 4 days. On every call, preventative maintenance is carried out.

Choose the **Preventative Maintenance** option for an annual on-site service call.

## ZebraCare Fixed Price Repair

ZebraCare Fixed Price Repair is a flat-rate repair service for non-functioning printers that are outside warranty or repair contract.

This service has one set price per printer covering the parts (excluding batteries), printhead, labour and preventative maintenance required to get your printer back to full operation.

## Options available with the On-Site and Depot Services

**Comprehensive Coverage** – Choose this option to obtain printhead coverage. For best ZebraCare Comprehensive prices, use Zebra supplies exclusively. Simply obtain a quotation from the Zebra supplies sales team and enter your quotation number and purchase forecast on the ZebraCare Service order form to receive comprehensive cover.

### Printer performance analysis reports

For large installations, choose the reporting option where Zebra will supply you with monthly printer performance analysis reports. These reports help you to keep control of your assets by analysing return rates and user behaviour. A minimum of 100 printers must be under contract for this option to apply.

## The Zebra repair process

If you encounter a problem with one of your Zebra printers, such as a fault with the machine or accidental operator damage, simply call your Zebra supplier and quote your ZebraCare contract number and the failed printer serial number. If your printers are not covered by ZebraCare contracts, ask for a Fixed Price Repair.

Your Zebra supplier will issue you with a Return Materials Authorisation (RMA) number, and the process to bring back your printer to full operation begins.

With On-Site Service, a Zebra-trained engineer will be at your premises within 24 hours.

With Depot Service and Fixed Price Repair, you will be asked to return the printer to Zebra Europe. With Depot Service with collection, pack up your failed printer, label it with the RMA number, and Zebra will arrange for a courier collection.

## Need more than ZebraCare provides?

If your service requirements exceed those offered by ZebraCare solutions, alternative offerings can be obtained from Zebra's network of technical partners.

### Zebra Authorized Service Provider™ (ZASP™)

Our global network of Zebra resellers and ZASPs demonstrates an unparalleled commitment to provide quality

service and support for all Zebra products. Each ZASP has been endorsed and certified by Zebra to provide on-site repair, as well as installations, maintenance contracts, depot repair and technical support. Go to [www.zebra.com](http://www.zebra.com) to find a ZASP near you.
